

Riga

Shower enclosures

A shower enclosure designed to fulfil the desire for a customised bathroom environment with a contemporary style. Riga is the *minimalist option* in line with the latest furnishing trends: linear showers with large, customisable glass surfaces.

Details

The Riga shower enclosure is distinguished by the joint of the upper profiles, which is made at a 45-degree angle. The fixed glass with aluminium profiles is of the same thickness as the door. The hinges are made of high-quality metal, guaranteeing uncompromising solidity and reliability.
